New iHAMMS® Marketing Website

Orlando, Florida, USA – 24 June 2016 - Marker InfoComm Inc, the world's largest independent provider of software tools to hotels for airline Frequent Flyer Program (FFP) administration, is pleased to announce the release of a new iHAMMS® marketing website. The iHAMMS® software is specifically designed for connecting hotel properties directly to the world's most popular Frequent Flyer Programs, thus processing FFP transactions for their guests.

Created with the user experience firmly in mind, the new iHAMMS® website has been designed using the latest responsive technology so the site is compatible with today's browsers, tablets and mobile devices. Furthermore, the new website allows for direct social media feeds across Facebook, LinkedIn, Twitter and Google+ and others.

The new iHAMMS® website has a clean and uncluttered design, improved functionality and enhanced rich content focused on Marker's mission to provide the world's best in Frequent Flyer Program software solutions. The new website goes live today, June 23, 2016 and is located at the same address: www.ihamms.com

"We are excited about our new website launch and the robust information it provides for both current and potential clients," said Kirk Stephens, Marker InfoComm Inc Founder and Chief Executive Officer. "We believe this new site will allow our visitors to have a very informative experience as we continue to grow and increase our market presence."

The new iHAMMS® marketing website will be updated on a regular basis with news of product launches, corporate milestones, industry events, and client announcements and contain a continuing blog series of industry-specific topics.
